

TOURER UND TOURER LIFT MODEL YEAR 2022

EN

DATE: NOVEMBER 2021

ALWAYS A SAFE TRIP:
THE LMC TOURER AND TOURER LIFT

QUALITY. TRUST. AT HOME.

LMC

FUN FOR THE
WHOLE FAMILY

FOR WONDERFUL TIMES WITH YOUR **FAVOURITE PEOPLE**

With the Tourer and the Tourer Lift, LMC's construction department has perfectly realised the aim of building a particularly light and flat vehicle. Depending on the layout, this permits a user payload of up to 680 kg. The model range is available in a total of six different layouts – three Tourer versions, and three versions of the Tourer Lift, which is equipped with a practical drop-down bed. This feature is particularly popular with families. Equipped with rear view camera, a 70 cm-wide comfort entrance door and a movable sink (both layout-dependent), this vehicle is designed for several generations travelling together and sleeps up to six people.

We at LMC develop travel companions. Our product portfolio is the result of our over 65 years of experience, our long-standing expertise and the exceptional skills of our workforce when it comes to designing and building caravans, motorhomes and camper vans made in Germany. Welcome aboard the new Tourer!

TIMELESS, IMPRESSIVELY UNDERSTATED
DESIGN

The Tourer's interior looks bright and modern. The light oak finish furniture is perfected by matt white and taupe accents. The anti-fingerprint coating on the surfaces ensures that everything is easy to keep clean and actually repels dirt. The intentionally streamlined design makes the Tourer look very special – as the style of the interior is the kind you'd find in a home!

Depending on the layout and your own preference, the Tourer offers the options of single beds (T 660 G, T 730 G) and double beds (mid-vehicle queen size bed in the T 720). The highlight of the Lift models is the space-saving drop-down bed, which completely disappears inside the roof when lifted.

FRESH, MODERN
AND DYNAMIC

STYLISH, LIGHTWEIGHT
AND STREAMLINED

The Tourer model range impresses with a flat and lightweight construction (2.69 m overall height in the model without a drop-down bed). With its well-thought-out layout and an interior headroom of 1.98 m, there is plenty of space for young and old.

Our product designers are continuously optimising the interior, adding fresh accents all the time. Together with our specialists, we create design- and functionality-focused interiors with fabrics and surfaces that are not only beautiful but also practical to ensure that you feel really comfortable in your LMC!

TOGETHER
ON TOUR

COSY SEATING FOR ENJOYABLE TIMES

The Tourer dinettes invite you to sit down for cosy get-togethers. The front seats swivel around, and there's an ergonomic upholstered two-seater bench; there is also an additional seat (model-dependent) that provides space for one more companion.

Many practical details are hidden in the kitchen - why not use the slightly higher part of the kitchen counter for your coffee machine, or stow the sink cover away by hanging it inside the cupboard door (both layout-dependent). The removable folding box in the drawer also offers you the option of stowing your shopping directly inside the cupboard.

FUNCTIONAL, VARIABLE **AND MODERN**

HIGHLIGHTS INTERIEUR

- Everything well-organised: no problem, thanks to the extra-wide wardrobe.
- From compact to generous: Thanks to a rollaway principle, our single beds can also easily be fastened together to create one large bed.
- The high-quality slatted bases and cold foam mattresses on all beds ensure that you can relax and always get a good night's sleep.
- Combination blinds in the sleeping area ensure the desired level of privacy.
- The practical washroom layout and technology ensure that there is ample space for everyone.
- A transparent window in the entrance door contributes to the bright, welcoming habitat atmosphere.
- Undesired guests stay outside with the optional fly screen door.

RELAX AND RECHARGE
YOUR BATTERIES

USEFUL IDEAS FOR THAT „LITTLE BIT OF EXTRA COMFORT“

CLEVER SOLUTIONS

1. Movable sink ensures more space and makes it easier to use the toilet (layout-dependent).
2. No fingerprints on the surface finishes thanks to anti-fingerprint coating.

- The optional electric drop-down bed in the Tourer Lift disappears inside the roof.
- Up to six sleeping berths possible.
- Universal hook on tracks in the kitchen area keep your kitchen utensils in order.

FLEXIBLE AND LIGHTWEIGHT - THE TOURER AND THE TOURER LIFT

(shown here is the Tourer T 660 G)

(shown here is the Tourer H 730 G)

EXTERIOR HIGHLIGHTS

- 1. Low vehicle heights (Tourer: 269 cm and Tourer Lift: 287 cm)
- 2. Low coupe-style entrance
- 3. Optional bike rack for up to four bikes
- 4. Full GRP construction (rear, roof, floor, side walls)
- 5. Potential user payload of up to 680 kg

BORN FROM A PASSION FOR CARAVANNING

Simply taking off and enjoying the most wonderful moments of the year. With a vehicle from LMC, you can look forward to doing precisely that whenever you want.

At its production site in Sassenberg, Germany, the creative caravan manufacturer builds modern, future-proof and light engineered caravan, motor-home and camper van models with well thought out layout options that meet all requirements, and plenty of features that reflect the engineering skills Germany is famous for. Our highly-qualified staff know exactly what matters. As passionate campers, we make every effort to ensure that our vehicles are so well designed in terms of quality, safety and comfort that they meet our own high standards. To make sure that all you have to worry about is rest and relaxation, they feature clever technology and functional solutions both inside and out. All LMC components are designed with durability and value retention in mind – your investment into an LMC is therefore a sound choice.

WE MAKE IT **EASY FOR YOU**

Our engineers rely on cleverly designed lightweight furniture and use a well thought out mix of materials and special light engineered components to guarantee that you benefit from a generous user payload.

Across all of our model ranges, we create clear structures and provide transparent information to make it as easy as possible for you to choose the LMC that's right for you.

„We always think in development from the user's point of view. That's why our living spaces are high-quality and clever constructed.“

MARKUS GRABOSCH,
Head of Construction and Development

QUALITY YOU CAN RELY ON

LMC stands for outstanding quality, reliability and long-lasting value. We use advanced production technologies to be able to guarantee all three. For added security, we give you our unique quality promise: a twelve-year water ingress warranty.*

See our homepage www.lmc-caravan.de for more information, or ask your dealer.

* All LMC models come with a twelve-year water ingress warranty, provided the vehicle is serviced annually by an official LMC partner (service charges apply). On motorhomes however, the guarantee is only valid up to a maximum total mileage of 120,000 km.

IMPORTANT INFORMATION

All accessory prices are for factory installation. Subsequent installations are subject to additional costs. Any change to the factory settings of your vehicle can lead to impairment of driving or road safety. The accessories recommended by us, and original spare parts have been specially developed for your vehicle. Accessories, fixtures, converted parts or built-in parts that have not been approved by LMC can cause damage to the vehicle and impair road safety.

Even if there is an expert appraisal for the part at hand, a general operating licence for parts, or type-approval, there is no presumption of the proper condition of the product. Please understand that no liability can be assumed for damages caused by products that have not been approved by LMC, or caused by unauthorised modifications.

The dimensions in roadworthy order (1) correspond with series design without optional extras. Installation of optional extras increase the dimensions of the motorised caravan in roadworthy condition (1), and the cargo load is reduced correspondingly (footnote 1). Please take the weight of the optional extra into account with regard to the cargo load (2).

Changes to prices, technical data, fixtures and furnishings, as well those regarding creative aspects, remain reserved. Information about scope of delivery, appearance and services, correspond to the information available at the time of printing. Deviations of +/- 5 % are possible in measurement and weight data (measurements in running order). The cargo load derived there from can vary correspondingly. Our weight information complies with requirements of EU-guideline 661/2009 and VO (EU) 1230/2012.

Depicted decorations are also not part of the scope of delivery. All information corresponds to the current status at the time of printing. We reserve the right to technical modification of the construction and outfitting, deviations to the colour, or mistakes, colour deviations are partially print or lighting related.

Some illustrations include optional extras subject to extra cost.

All prices are recommended retail prices in Euros, incl. statutory value added tax ex works LMC.

The validity of all previously published price lists expires with the publication of this price list.

FOOTNOTES

- 1) This weight includes the driver's weight (75 kg) and following mass of the vehicle with standard equipment according to manufacturer's specifications: Liquids such as fuel and AdBlue (90 %), fresh water (10 l/20 l), gas (1 x 11 kg + approx. 5 kg bottle weight) at 100 %, plus tools, tyre repair set and cable reel, without optional extras. This corresponds to a weight of approx. 191 kg to max. 212 kg.
- 2) The payload must not be exceeded by the number of passengers, your personal equipment and special equipment.
- 3) Eco-pack with 140 PS in combination with automatic transmission is mandatory. Special equipment automatic transmission.
- 4) With the pop-up roof special equipment, there is no skylight in the washroom. The washroom window is then standard equipment. In addition, omitted the roof hood and/or the roof hood Midi Premium. Usage of the pop-up roof in winter is not recommended.
- 5) Only in combination with the pop-up roof. Button-on insulating mat in the pop-up roof. Not available in combination with hot water heating.
- 6) With roof elements ensure that there is limited space for the mounting.
