It is important to us that all LMC components are designed with a focus on durability and value retention.

Across all of our model ranges, we create clear structures and provide transparent information to make it as easy as possible for you to choose the LMC that's right for you. Discover our LMC world.

LMC JOURNEY INTO THE PAST  
**IT ALL STARTED WITH THE „KNOSPE“**

1955

In the 1950s, the master painter and varnisher – and passionate camper – Heinrich Austermann develops a folding camper trailer for his own use. Due to popular demand, he begins to manufacture the legendary „Knospe“ in 1955. Until the mid-1960s, Heinrich Austermann produces various versions of the „Knospe“ with his fifteen employees.

1966

Wilhelm Saure takes over the company and establishes the Wilhelm Saure KG. The first caravan goes into serial production.

1976

The legendary model ranges „Lord“ and „Münsterland“ are launched in the 1970s. The 10,000th caravan rolls off the production line in 1976.

2000 – 2005

LMC invests in a customer service centre, new production and logistics facilities, plant and machinery. The factory uses Ford Transit chassis for the first time.

2007 – 2013

In order to further optimise the LMC brand, the production area is restructured, and investments are made into a water jet cutting machine, a roof production line, an edging centre and hail-proof roofs.

2020 – 2022

LMC celebrates its 65th anniversary, and looks towards the future with optimism. To mark the occasion, the anniversary caravan model Style 493 K is launched on the market. In 2021, LMC begins to produce camper vans. LMC completes its portfolio with the Fiat and Ford based Innovan.

1986

In 1981, the company becomes the „LMC Lord Münsterland Caravan GmbH“. The first „Liberty“ model range motorhomes roll off the production line from 1986 onwards.

1991

The company's incorporation into the Erwin Hymer Group leads to investments into the factory's expansion.

2015

LMC celebrates 60 years of passion for caravanning and launches two attractive special edition caravan and motorhome models.

2018

Opening of the new production facilities that double the production capacity. The state-of-the-art technology represents a milestone in the LMC company history.

ROOM AT THE TOP –  
**THE CLEVER WAY TO TRAVEL**

Our layouts are as flexible as our customers are individual. LMC offers numerous interesting and clever extras that are truly worth it. They make your holiday experience more comfortable, easier and carefree.

You will find some of the clever solutions here in the overview (layout-dependent), and more for each of our model ranges on our website. Our expert dealers will also be happy to advise you. They have plenty of additional tips and tricks up their sleeves.

With LMC's pop-up roof, we are not only adding two further sleeping berths but also a cosy den that is much appreciated by children and adults alike.

Our layouts with beds designed especially for children (indicated by a „K“ after the layout name) feature a classic bunk bed as a standard, although this can optionally be increased to a triple.

A SELECTION OF OUR CLEVER SOLUTIONS –  
**DESIGNED TO ENSURE THAT YOUR HOLIDAY SIMPLY WORKS**

- Safely stowed away: Illuminated compartments below the overhead lockers are perfect for storing all sorts of things that are used every day (Style).
- Sensibly positioned storage spaces that are easy to reach are important to us.
- Numerous skylights and a hinged window at the front or in the rear ensure your home away from home is light-filled.
- All cupboard and locker doors close effortlessly and noiselessly thanks to a soft-close mechanism.
- No finger marks on the surface finishes thanks to anti-fingerprint coating (Tandero, Tourer and Innovan).
- Modern, fade resistant upholstery fabrics with a good abrasion rating and optimum non-pilling properties (no knots at all, or very few).

- Effortless conversion: The table positioned next to the transverse double bed can simply be pushed inside the bed carcass, if necessary (Sassino 470 K).
- A transparent window in the entrance door contributes to the bright, welcoming habitat atmosphere.
- Our top lockers: Handleless and secure to ensure that everything stays where it belongs.
- The 12V power track makes it possible to position the lighting and the optional USB sockets flexibly inside the vehicle.
- Fresh air in the washroom thanks to a roof vent with integrated fly screen.

INTERIOR HIGHLIGHTS

- Whether used as a single bed or extended to create a wide double bed – the cold foam mattresses ensure that you get a good night's sleep and are ready for the next day's adventures.
- Indirect lighting above the overhead lockers creates a warm and cosy atmosphere.

FLEXIBLE AND **RELAXING**

The spacious washroom with a separate toilet and shower area (layout-dependent) provides a high level of comfort with plenty of room to move. Fold-out laundry rails in the toilet area or in the shower provide a place for drying wet clothes. Plenty of light, various shelves and a large mirror make the space look more generous.

Numerous storage solutions, like a compartment underneath the floor and the storage space below the bench seat, also ensure that you'll never be short of storage space in the habitation area when it comes to storing your travel equipment. If two more people join you on your travels, you can effortlessly create two additional sleeping berths with the optional pop-up roof.

- The lighting fitted inside the wardrobe makes getting dressed easy. Let there be light.
- Practical charging options where they're needed most: With the flexible USB sockets for the lighting rails in the dinette in the sleeping area.
- The practical swivel toilet is the best example for how efficiently the washroom space is used.
